over **260 live CE** events  
happening in 2020.

*Details inside.*

**REVIEW**<sup>®</sup>  
OF OPTOMETRY

# DO YOUR DRY EYE PATIENTS WEAR CONTACTS?

Dry eyes are one of the most common reasons patients discontinue wearing contact lenses<sup>1</sup>

# 73%

OF CONTACT LENS WEARERS WERE DISSATISFIED OR DISCONTINUED USE **BECAUSE OF DRY EYE SYMPTOMS**<sup>2</sup>

Based on a survey of 730 contact lens wearers (n=730)

For patients who wear contact lenses, **screening for Dry Eye Disease is considered optimal**<sup>1</sup>

## CE is the Path that Leads Us Forward

*Our profession has always embraced change and set its own course. We can only do so by committing ourselves to lifelong learning.*

Each year as I lecture across the country, I am reminded how critical continuing education is to optometry. Whether I'm talking with a small group of colleagues in Springfield, Massachusetts, or standing on a large auditorium stage in Springfield, Missouri, I'm always reminded how education not only brings us together but also helps strengthen our profession and our standing in the medical community, both now and in the future.

Looking back at 2019, many of our colleagues worked tirelessly to ensure doctors of optometry in their respective states would finally be allowed to practice near the fullest extent of their training. Our neighbors in Arkansas won a contentious battle that finally allows their ODs to perform laser treatments, administer certain injections and take on other long-overdue privileges. We also celebrated scope of practice victories and hopeful soon-to-be wins in Iowa, Maryland, Minnesota, Nebraska, New York, Texas, Nevada and Alabama.

But despite the headway we've made, the profession continues to fight against critics who are trying to block our progress. In Arkansas, some opponents are continuing to fight the expanded scope of practice law and are working to get a voter referendum on the ballot in 2020 to have it rescinded.

With each step forward, many across the nation are looking closely at optometry's capabilities and training, hoping we will fall two steps back, as they falsely cite our lack of training to perform certain procedures and treatments.

This is just one critical reason continuing education is and will continue to be imperative for the growth of our profession. Whether you attend the large, multi-day conferences that attract thousands or a small CE event in your hometown, continuing education provides the clinical knowledge and hands-on know-how to bridge any gaps. From myopia management to courses on

IOLs, glaucoma, dry eye and CXL—just to name a few—the depth of the courses being offered are varied and rigorous.

In 2020, more than 260 continuing education events will be offered from coast to coast and even at far-flung European destinations like Italy, Austria and the Netherlands. Wherever you practice, CE opportunities abound whether you want an experience among the vineyards in Tuscany or a traditional, regional meeting in the Midwest.

A clinical education highlight for me personally is my position as education chair of the New Technologies & Treatments in Eye Care series. These four meetings, scheduled throughout the year at strategic locations across the country, are known for their relaxed, collegial setting between the presenters and the doctors in attendance. They also allow doctors to roll up their sleeves and try out new technologies and treatments during the standout workshops. I'll be there, along with other experts, to guide you along and answer questions through every course, lecture and technique.

When I'm presenting a lecture, colleagues often express concerns about the evolution of our profession and I tell them success hinges on our educational offerings. Some want to get more knowledge about OCT imaging, while others want to learn more about glaucoma medications or cataract and refractive surgery comanagement—all of which they can find at local and national conferences.

Whatever your interest, or how far you'd like to roam, 2020 offers a wide array of continuing education opportunities for you.

We hope this annual supplement to *Review of Optometry* will help shape your CE adventures for the year. I look forward to seeing you at a meeting in 2020!

—Paul Karpecki, OD, Chief Clinical Editor

# HEALTHY EYES START HERE

## PROMOTE AND PRESERVE EYELID HEALTH FOR YOUR PATIENTS WITH BRUDER PRODUCTS

Bruder Healthcare is a recognized leader in eye care and provides the **#1 doctor recommended moist heat eye compress** as well as a line of **daily lid hygiene products**.

Bruder products are used in medical settings and homes around the world and offer best-in-class solutions for dry eye patients, contact lens wearers and patients preparing for ocular surgery.

Maintaining healthy eyelids and eyelashes doesn't have to be complicated. Optimal results can be achieved with a **complete routine** that includes a combination of *wiping* away debris, *spraying* to reduce bacteria, and *warming* to unclog blocked glands.

Recommend a simple but comprehensive approach to ocular comfort and wellness with the Bruder family of eye care products.

TO ORDER, CALL **888-827-8337** OR VISIT **ORDER.BRUDER.COM**

**FEB. 14-17, SNOWMASS VILLAGE, CO**

### Study and Ski in Sunny Colorado

The longest-running winter CE meeting in eye care, the Winter Ophthalmic Conference, will be held Feb. 14-17 in Snowmass Village, CO. There, you'll learn the latest on topics vital to your practice and patient care including allergy, dry eye, glaucoma, pharmacology, retinal disorders and uveitis.

"Whether your focus is the recreation, education or camaraderie, you'll find it here," says meeting co-chair Leo Semes, OD. "In addition, the exhibit hall always has something for the cutting-edge practitioner." Snowmass Village is the ideal location, with something for everyone.

This longtime meeting favorite—also co-chaired by Murray Fingeret, OD—has assembled an all-star lineup of leaders in the profession to provide up to 17 CE credit hours. During the meetings' first evening, Paul Karpecki, OD, will present "Innovations in Eyecare," and Robert Fechtner, MD, is on deck the next day with "New Developments in

Glaucoma Therapy." Other sessions include "My (Least) Favorite Maculas" from Dr. Semes and "Differential Diagnosis of Swollen Optic Nerve Head" by Eric Schmidt, OD. These morning sessions leave the afternoon open so you can hit the slopes. "New Technologies in Glaucoma," by Dr. Fingeret will wrap up the meeting Monday evening.

Spend President's Day weekend with the profession's brightest and bring your family along!

The event is hosted by Review Education Group. For more information, contact [reviewmeetings@jhihealth.com](mailto:reviewmeetings@jhihealth.com), 866-730-9257, or go to [www.skivision.com](http://www.skivision.com).

**FEB. 24-26, PARK CITY, UTAH**

**Go Beyond the ABCs with All Things OCT**

OCT is quickly becoming a go-to instrument for just about any ocular condition. Whether you are ready to make the financial commitment to buy one or you're looking for new ways to use the one you already have, All Things OCT is just the meeting for you.

In 2020, All Things OCT will put on its third annual meeting, which will be held Feb. 24-26 in Park City, Utah.

Attendees will be able to earn up to 14 hours of CE credit through dynamic lectures and hands-on workshops. Experts will give you the knowledge you need on OCT, OCT angiography (OCT-A) and multimodal diagnostics to boost you to the pro level, the conference organizers say. As always, the meeting's emphasis will be on clinical applications of these technologies.

All Things OCT was the first COPE-approved optometry conference dedicated solely to this breakthrough imaging technology, which has dramatically changed the way

clinicians practice, says program co-chair Joseph J. Pizzimenti, OD.

"We are looking forward to delivering another innovative program that focuses on OCT/OCT-A principles, scan selection, interpretation and clinical application. In learning more about multimodal imaging, attendees will gain valuable, clinically relevant knowledge about a variety of topics, from scleral contact lens design to retina, glaucoma, and neuro eye disease," explains Dr. Pizzimenti.

Attendees will also be able to hit the slopes between courses and enjoy Shadow Ridge Resort. And the setting is family-friendly, so feel free to bring along the kids.

Key speakers will include Dr. Pizzimenti along with James Fanelli, OD, Carolyn Majcher, OD, Leonard Messner, OD, Richard Trevino, OD, and Steven Sorkin, OD.

Is your New Year's resolution to brush up on the latest in contact lenses? Or is it to travel the globe? Then book your flight now to tackle both by joining the largest meeting focused on contact lenses in Europe: the Netherlands Contact Lens Congress (NCLC), held March 15-16 in Veldhoven, The Netherlands.

Since its first meeting in 2006, the NCLC has grown considerably and now attracts more than 1,900 participants from more than 20 countries each year. With the theme "Beyond 2020," this year's congress will take you for a ride into the future with the philosophy that successful contact lens wear is more than just visual correction.

A total of 48 continuing education credit hours will be offered, and optometrists can earn up to 16 during the meeting. In addition to contact lenses, other topics include allergy, binocular vision, cornea/conjunctiva, corneal surgery, dry eye, eyelids/adnexa, laboratory testing, nutrition and the eye, practice management, retinal surgery and technology.

For more, contact Hans Kloes, [hans@kloes.nl](mailto:hans@kloes.nl) or go to [www.ncc2020.com](http://www.ncc2020.com).

**SECO: Back on Home Turf for 2020**

After changing things up last year with a visit to New Orleans, in 2020 SECO will return to Atlanta for its annual Congress, taking place March 4-8. Riffing on the year's uniquely vision-themed number, SECO is calling its meeting SECO 20/20.

This meeting will offer a clear view of what's ahead for your practice with hundreds of courses, special sessions and symposia led by experts in the profession and emerging stars. This year's key presenters will include Jack Parker, MD, Mark Dunbar, OD, Harry Quigley, MD, Tammy Than, OD, Danica Marrelli, OD, Rishi Singh, MD, Joseph Sowka, OD, and many more.

"The SECO 20/20 education program is a diverse mix of clinical, technical and business content developed by a committee of volunteers dedicated to creating a world class conference," says Paul C. Ajamian, OD, SECO's continuing education general chair. "Tapping brand-name speakers that you have come to expect as well as emerging thought leaders, you'll find both topics and learning formats to suit your specific needs and enrich your knowledge."

"Only at SECO can you get a comprehensive look at the research, technology and techniques that are propelling our profession forward," adds Dr. Ajamian.

For 2020, SECO will be offering a total of more than 400 CE credit hours, and optometrists can earn up to a maximum of 54 CE hours.

Here's just a few of the high profile courses on tap for this year:

- "Glaucoma: What Do We Know & How Do We Know It, Which Should It Be?"
- "Diabetes 2020 and Beyond: Today's Advances and Future Possibilities"
- "Ocular Neoplasias: Don't Miss Them!"
- "Surgical Retina & Beyond"
- "Cutting Edge Cornea"

**Mind Your Own Business**

The MedPro360 program will offer practice management and business content tips. A business program within SECO's already comprehensive educational offerings, MedPro360 provides relevant and actionable strategies in leadership, sales, marketing and communications, billing and coding, HR staff training and retention, customer experience, financials and profitability analysis and revenue streams.

MedPro360 strengthens business skills to ensure practices run smoothly and offers an exciting business management program designed to improve the profitability and functionality of your practice. This year's suite of sessions includes "The Evolution of Dry Eye Management," "The Coming Era for Advancements in Glaucoma Therapies" and "KOL Perspectives on Surgical Comanagement."

**That's "Edu-tainment!"**

Who says learning can't be fun? The special "Edu-tainment" sessions will offer an interactive opportunity to earn CE while combining learning, fun and networking. Join Dr. Ajamian at the Porsche Center for a CE and sports car experience for "Steering Clear of Malpractice." Enjoy an upscale sports bar dinner and CE course at "Aesthetically Pleasing: Incorporating Oculoplastics Into Your Practice," with Selina McGee, OD. Even get the chance to join Mo Rafieetary, OD, for casual dining and CE at one of downtown Atlanta's most enjoyable spots,

Der Biergarten, where he will present "Anti-VEGF for Breakfast, Lunch and Dinner."

**Symposia: Something for Everyone**

These highly sought-after seminars offer insights on today's technologies and techniques. Enjoy a complimentary meal while industry leaders discuss advances in clinical care and timely concerns in advancing the profession. The OD Symposium Series and the Allied Healthcare Professional Symposium Series sessions are offered at no charge to registered attendees.

**Specs Buyer Program**

New for SECO 20/20, the Specs Buyer's series is designed to provide your practice's frame buyer with core retail buying strategies and formal training in inventory management. The communal, interactive series will enhance knowledge in two specific areas: optical frames and business tactics. Gain purchasing strategies that you can apply immediately to plan, promote, manage and sell in your optical. Sponsored in part by Gazal and Zyloware.

Attendees can also check out the View show floor to learn what's new, what's next and how to solve even the most difficult fitting challenges. Mingle with peers and share ideas and strategies for creating a dynamic inventory while increasing patient satisfaction and practice revenue.

**General Session**

This will feature a discussion on one of the hottest topics in eye care: myopia. During "Myopia Management," attendees will hear the latest treatment modalities and the integral roll staff play in creating awareness of the issue and identifying those at risk. Don't miss this informative and dynamic panel.

"We are deep into planning for SECO 20/20, 'A Perfect View of What's Ahead' as we continue to lead the profession with world-class education," says Max Ernst, OD, SECO 2020 president. "Delivering unparalleled education is the cornerstone of SECO International, yet attending SECO's annual meeting is so much more!" According to Dr. Ernst, the fundamental need of any ophthalmic professional to attend a professional meeting is education.

"Given a choice to earn my continuing education credits each year at a multitude of meetings, I always prefer the setting and environment that creates fun, excitement and inspiration so that I walk away energized," Dr. Ernst says. "If you have never attended a SECO meeting, I want to personally invite you to SECO 20/20 and experience the largest continuing education meeting and Southern hospitality! There is something for everyone at SECO!"

For more information or to register, go to [www.attendseco.com](http://www.attendseco.com)

#### The Lowdown on Local Hot Spots

Atlanta is steeped in history and culture, with Southern charm and world-class sophistication. If you need a break from the courses, check out some of these must-see attractions, provided by [www.atlanta.net](http://www.atlanta.net):

**Atlanta Botanical Garden:** 1345 Piedmont Ave. NE, [www.atlantabg.org](http://www.atlantabg.org). Explore the 30 acres of outdoor gardens that are ever-evolving for its horticulturally-minded, nature-inspired and fun-seeking visitors.

**Atlanta History Center:** 130 West Paces Ferry Rd. NW, [www.atlantahistorycenter.com](http://www.atlantahistorycenter.com). Housing the largest collection of Civil War memorabilia in the Southeast, the Atlanta History Center guides you through Atlanta's fall and rise as an international city.

**Centennial Olympic Park:** 265 Park Ave. W NW, [www.gwcca.org/centennial-olympic-park](http://www.gwcca.org/centennial-olympic-park). Just steps from the convention center, this park serves as Atlanta's legacy from the 1996 Olympic Games.

**College Football Hall of Fame:** 250 Marietta St., NW, [www.cfbhall.com](http://www.cfbhall.com). Find your team on the Helmet Wall, kick a field goal in the indoor playing field and view sports history from the 52-foot touch screen wall.

**Inside CNN Studio Tour:** 190 Marietta St. NW, [www.tours.cnn.com](http://www.tours.cnn.com). This news giant offers behind the scenes tours every day. Slip into the control room and get a glimpse at news in the making for viewers all over the world.

**Georgia Aquarium:** 225 Baker St. NW, [www.georgiaaquarium.org](http://www.georgiaaquarium.org). Escape into an underwater paradise where you can see the world's largest fish, whale sharks, as well as belugas, dolphin, otters and more.

**High Museum of Art:** 1280 Peachtree St. NE, [www.high.org](http://www.high.org). This museum features several permanent collections of classic to contemporary art as well as high-profile traveling exhibits.

**Martin Luther King, Jr. National Historic Site:** 450 Auburn Ave. NE, [www.nps.gov](http://www.nps.gov). Start with a guided tour of Dr. King's birth home, then make a stop in the original Ebenezer Baptist Church and the theater where visitors can view Civil Rights films.

**Stone Mountain Park:** 1000 Robert E Lee Blvd., Stone Mountain, [www.stonemountainpark.com](http://www.stonemountainpark.com). Go hiking, biking or jogging, take in 18 holes of golf, complete the ropes course, catch a movie and enjoy the spectacular nightly laser show.

**World of Coca-Cola:** 121 Baker St. NW, [www.worldofcoca-cola.com](http://www.worldofcoca-cola.com). Take in vast amounts of memorabilia and visit the tasting room, where guests travel the globe by sipping more than 60 varieties of Coca-Cola from around the world.

**Zoo Atlanta:** 800 Cherokee Ave. SE, [www.zooatlanta.org](http://www.zooatlanta.org). Animal lovers of all ages can explore the habitats of more than 1,000 creatures.

## SECO 20/20

WHERE SIGHT MEETS VISION™

### THE 2020 SECO SHOW DAILY!

The SECO conference, one of the premier educational events of the year, will take place March 4-8, 2020—and *Review of Optometry* will be there!

*Review's* on-site editorial staff will provide live daily coverage of important show news and events, educational highlights, product launches and more.

Attendees on-site can pick up the SECO Daily each morning for the latest news and highlights. Those at home can stay in touch, too—a digital edition of the SECO Daily will be posted online, plus an e-newsletter will be sent out each morning with the day's top stories.

Show copies will also be available at the *Review of Optometry* booth.

**Join Vision Expo East for a “Reimagined” Experience in 2020**

**MARCH 26-29, NEW YORK CITY**

**V**ision Expo East (VEE) is a long-running staple in optometry’s “big meeting” category. But in 2020, the Vision Council and Reed Exhibitions will be rolling out a refreshed and reimagined experience with many exciting changes afoot, including unique clinical content and an updated exhibit hall experience with custom-designed “neighborhoods” that will help sellers and buyers connect more easily in a creative and interactive atmosphere.

VEE 2020—scheduled for March 26-29 against the always-lively backdrop of the Big Apple—will offer a total of 300 CE hours, and attendees can earn up to 28 hours of continuing education credit during the course of the meeting.

**CE Like You’ve Never Seen**

Although many of this year’s most visible changes will be in found the exhibit hall, “advancements in continuing education programs are also central to Vision Expo’s reimagined presence,” said Mark Dunbar, OD, Education Advisory Board Co-Chair, in press materials from the organizer. The board tasked its speakers with creating new clinical education content that will officially launch at VEE 2020, organizers say.

“The 2020 Education program includes exclusive, never-before-seen clinical presentations staged for the first time ever at Vision Expo East,” according to Dr. Dunbar. “Clinical attendees will discover courses specifically developed to immerse them in the most cutting-edge developments for better patient care.”

Here are some clinical highlights you won’t want to miss:

**Glaucoma:** This innovative track will offer 15 courses, ranging from a “March Madness: Case Challenges in Optometry—Optimizing Ocular Imaging” series to “Innovations in Glaucoma Drug Delivery: What the Future Holds” and “MIGS in Glaucoma.”

**Anterior Segment:** Over a dozen classes will be offered in this category, including “Dry Eye and Contact Lenses,” “Biologics in the Optometric Practice: Lowering Inflammation with Amniotic Tissue” and “Are You Ready for Ocular Allergy Armageddon?”

**Imaging Technology:** Want to know more about OCT and beyond? Then you’ll want to sit in on courses in this track such as the “March Madness: Case Challenges in Optometry—Optimizing Ocular Imaging” series, “How OCT Forever Changed Retina” and “OCT in Glaucoma.”

**Surgical/Comanagement:** If comanagement is part of your practice or you’d like to dip your toe into this area, these three courses will help hone your skills or get you up to speed: “Aesthetics in Optometry—A Therapeutic Approach: IPL,” “Oculoplastic Optometrist: Aesthetics in Eye Care” and “20/20 Refractive Update: Advances in Presbyopic and Corneal Procedures.”

**Hands-on Workshops:** Want to roll up your sleeves and get some practical experience? These courses will put you in the driver’s seat: “Injections and Minor Procedures Workshop,” “Scleral Lens Workshop” and “OCT Workshop.”

**Contact Lenses:** This modality remains a critical part of any successful practice. VEE will offer 18 contact lens courses that will help take this arm of your practice to the next level. A few courses in this track include “Building a Successful Myopia Management Subspecialty Practice,” “New and Innovative Uses for Contact Lenses” and “Contemporary Thoughts on OSD and Dry Eye Management... There’s More Than Just MGD Going On, Folks!”

**Low Vision:** These classes are supported by a grant from the Vision Council: “Today’s Low Vision Made Easy,” “Low Vision Patient Communication Strategies” and “Low Vision—A Multidisciplinary Approach.”

**Posterior Segment/Retina:** Do you have a specialty retina practice or want to learn more about AMD and other posterior segment conditions? Then you’ll want to register for these courses: “Emerging Trends in Age Related Macular Degeneration,” “Innovations in Diabetic Retinopathy,” “Don’t Let Swollen Optic Nerves Make You Nervous” and “The Greatest Posterior Segment Disease Course.”

**Optometric/Surgical Procedures:** Brush up on the latest in this area with these courses: “Laser Procedures in Optometry,” “Cataract 2020: The Optometric Role in the Era of Specialty Lenses” and “Injections and Minor Procedures Workshop.”

**Pharmacology:** New meds, drug delivery systems and therapies are entering the market at a rapid pace. These courses will keep you up-to-date on the latest in this area: “Oral Pharmaceuticals in Anterior Segment Disease,” “Top 10 Drugs: What’s in the Cabinet” and “Ocular Pain Management.”

**A Beautiful Day in the Neighborhood**

For 2020, don’t expect a staid, ho-hum exhibit hall experience! VEE 2020 will

welcome the first-phase debut of three new distinct neighborhoods:

**The River:** The Vision Council says this neighborhood will offer “daring, design-driven artisanal products” creating a show-within-a-show pavilion for top suppliers. It will be located in the River Pavilion on level four.

**The Union:** Located on level three, The Union will offer “the ultimate shopping experience” of boutique and premium independent brands that are exclusive, hip and fashion-forward.

**The Springs:** Described as an “incubator zone,” this space is designed for emerging talent in eyewear design. It will also be located on level three.

Additional neighborhoods are planned to debut in 2021.

And for those attending Vision Expo West in the fall, you can so expect a reimagined experience as well, with the same refreshed clinical offerings as VEE 2020 and a few unique additions to the exhibit hall.

For more information or to register, go to [east.visionexpo.com](http://east.visionexpo.com).

### Channel Your Empire State of Mind

While in town for VEE, carve out time to explore some of the country’s best restaurants, shopping and attractions:

**The Met:** You could spend a week browsing 5,000 years of masterpieces here and still not see everything.

**Times Square:** This is, hands-down, the most frenetic part of the city, with its bright lights, towering buildings and shoulder-to-shoulder crowds.

**Top of the Rock; Empire State Building; One World Trade Center:**

There’s no better way to take in the scope of New York City than by making your way to the top of one of the buildings of the iconic skyline.

**The MoMA:** This is home to some of the world’s most popular masterpieces from artists like Warhol, Picasso and Van Gogh.

**Brooklyn Bridge:** Walking across the East River atop the iconic wooden-planked structure takes about 40 minutes and delivers some of the best views of Lower Manhattan.

**Statue of Liberty; Ellis Island:** For millions of immigrants, the first glimpse of America is the Statue of Liberty, and the Ellis Island National Museum of Immigration tells their story through numerous galleries.

**American Museum of Natural**

**History:** Four city blocks house the museum’s 45 exhibit halls, which hold more than 30 million artifacts.

**Central Park:** This urbanized Eden gives residents and visitors a taste of the city’s nature. The busy southern section (59th St. to 72nd St.) is where most guests get their first impression.

**9/11 Memorial:** The 30-foot waterfalls sit in the footprint of where the Twin Towers once stood. Panels inscribed with the names of those who perished in the attacks border the memorials.

**High Line:** Once a railroad, this elevated space—running from Gansevoort Street in the Meatpacking District to West 34th St.—was transformed into a retreat from the hubbub of the city.

### Wine and Dine on NYC Time

After a day of education, exhibit hall meandering and sight-seeing, wind down at one of these top-notch NYC wine bars, thanks to [zagat.com/best-wine-bars-in-nyc](http://zagat.com/best-wine-bars-in-nyc):

**Bacaro:** The sultry, wine-cellar vibe with Venetian dishes is perfect for hipsters, artists and uptowners alike.

**Upholstery Store:** There’s nothing stuffy about this West Village wine bar, where guests hail the American bites, stellar cocktails and well-chosen vinos.

**The Four Horsemen:** A killer wine list filled with quirky finds headlines this cozy nook, and the seasonal American fare is spot-on too.

**Casellula:** Perfect for date nights, this rustic Hell’s Kitchen spot offers a romantic blend of wines, cheeses and small plates.

**Ruffian:** Arched windows draw light into the 19th century building where diners enjoy happy hour snacks and specials with a focus on French cuisine.

**June:** This dramatically lit Cobble Hill hangout has big booths and a marble bar and offers European wines alongside a short and sweet New American menu of inventive seasonal plates.

**The Ten Bells:** The food menu focuses on Spanish small plates, but many guests come for the popular wine and oyster happy hour.

**Terroir TriBeca:** This wine bar serves foods that are just as impressive as the drinks. The diverse menu has several half-glass options and features a wholesome meatball sandwich.

**Lois:** This bottle-free East Villager has comfy touches like tufted barstools, the space offers seasonal plates and cheeses with pairing suggestions.

**La Compagnie des Vins Surnaturels:** The restaurant offers an extensive, French-heavy wine list paired with French-Mediterranean small plates.

## Stay On Top with the New Technologies & Treatments in Eye Care Series

**D**o you feel like the practice of optometry is changing so rapidly it's hard to keep up? If so, you aren't alone. On a near-daily basis, new technologies, therapies and medical devices are being ushered onto the market. That alone makes it hard to keep up. Adding to the challenge, scope of practice laws continue to expand across the nation, requiring optometrists on the front lines of patient care to up their skills and knowledge to stay competitive.

The New Technologies & Treatments in Eye Care meeting series is just the place to discover what's new and how to integrate it into your practice.

Whether you're wondering which new dry eye treatment to try, worried about keeping up with the latest in imaging technology or hoping to pick up some pointers on the advances in glaucoma detection, these meetings will help fill in the blanks.

The long-running meeting series is known for its interactive sessions and approachable faculty, who do double-duty as experts in the field. But as the profession grows, so do the meetings' offerings and approach.

"Our profession is changing. As such, the education at the New Technologies & Treatments in Eye Care meetings has also evolved," says meeting chair Paul Karpecki, OD. "The addition of hands-on wet labs and workshops will let you roll up your sleeves and get real-world experience you can bring home to your practice.

In addition, the interactive education and roundtable discussions provide the latest in relevant, clinical education that attendees need to know to stay up to date, he says.

During these meetings, copies of the presentation slides aren't the only take-homes. Instead, the workshops allow doctors to gain real-life practical experience in a wide range of areas, including dry eye clinical procedures, glaucoma technology and retinal disease diagnosis.

Another feature that truly sets these meetings apart is the collegial back-and-forth between attendees and

presenters, Dr. Karpecki adds. You won't get a stuffy lecture hall experience. Optometrists in attendance can expect discussions to organically flow from the classroom into the hallway, which makes the learning experience much more memorable for the doctors, Dr. Karpecki adds.

"The combination of the workshops plus the traditional classroom lectures will empower practitioners with new knowledge and experience, and, ultimately, they will be able to pass this on to their patients," Dr. Karpecki says.

Four meetings are scheduled for 2020 at convenient stops across the country. The first meeting, in Austin, will provide a double-dose of learning opportunities, as the New Technologies & Treatments in Eye Care Series teams up with the Optometric Cornea, Cataract and Refractive Society (OCCRS) for a joint meeting.

Optometrists can earn up to 18 CE hours for most of the meetings, and up to 28 CE hours at the joint symposium with OCCRS.

The 2020 meeting schedule is as follows:

- **April 16-19, Austin.** This joint meeting with OCCRS will feature Dr. Karpecki, OCCRS President and Program Chair Tracy Schroeder Swartz, OD, and several others to be announced as the meeting approaches. The event will be held at the Omni Barton Creek and will offer up to 28 CE hours.
- **May 29-31, San Diego.** Earn up to 18 CE credit hours in the beautiful setting of sunny southern California.
- **June 5-7, Orlando.** Attendees can kick up their feet at Disney's Yacht and Beach Club Resort and earn up to 18 CE credit hours.
- **Nov. 6-8, Philadelphia.** This meeting will be held at the Philadelphia Marriott Downtown, and optometrists can earn up to 18 credit hours.

For more information or to register for any of these exceptional CE opportunities, contact Review Meetings, [reviewmeetings@jhihealth.com](mailto:reviewmeetings@jhihealth.com), 866-658-1772 or go to [www.reviewofoptometry.com/events](http://www.reviewofoptometry.com/events).

**APRIL 18-19, AUSTIN**

**New Location,  
Same Stellar Meeting:  
OCCRS Moves to Texas**

Interested in learning more about the latest in anterior segment medical and surgical care—and honing your comanagement skills? Then this year you'll want to head to Austin for the Optometric Cornea Cataract and Refractive Society's (OCCRS) annual meeting, slated for April 18-19.

The 2020 event marks OCCRS's 17th annual symposium—and it's celebrating with a new location in the Lone Star State after a long stint on the west coast.

Attendees will get the inside scoop on the latest in refractive surgery, corneal transplants, keratoconus treatments, cataract surgery, premium intraocular lenses and ocular surface disease.

"Each year, the OCCRS faculty organize excellent education in a friendly forum to connect doctors with new technologies for advanced clinical care. We will again offer workshops where doctors get hands-on experience with new technologies and treatments," says OCCRS president Tracy Swartz, OD.

The OCCRS symposium will immediately follow the New Technologies and Treatments in Eye Care meeting at the same venue that begins on April 16. By attending both meetings, ODs will be able to earn up to 28 hours of CE credit.

For more information, contact Review Meetings, [reviewmeetings@jhihealth.com](mailto:reviewmeetings@jhihealth.com), 866-658-1772, or go to [www.reviewsce.com/austin2020](http://www.reviewsce.com/austin2020).

**Learn from the Pros: Where to See Melton and Thomas in 2020**

The best way to learn something new, or just be reassured that you're already doing things right, is to have a pro tell you how *they* do it. In optometry, Ron Melton, OD, and Randall Thomas, OD, are among the top-tier lecturers on most people's must-see lists. Their innovative "team teaching" model, 70+ combined years of clinical experience and easy-going Southern charm ensures doctors of all skill levels get the advice they need to succeed. The North Carolina duo has given nearly 2,000 lectures in all 50 states and throughout the world. At press time, here's where they're slated to appear in 2020. Be sure to check [www.reviewofoptometry.com/events](http://www.reviewofoptometry.com/events) for updates throughout the year.

**Overheard in the Lecture Hall...**

Here's what some ODs who attended a Melton & Thomas lecture in 2019 had to say about it:

I've attended numerous Melton and Thomas lectures over the past 20 years and they're always great.

Hot discussion, good give and take—enjoyed it!

Very clinically oriented. Super informative!

I sincerely hope these two excellent doctors of optometry continue lecturing for many years to come.

Best talk of the year—again!

Those two are awesome!

**Plan Ahead — 2021 Cruise!**

March 12-27, 2021, Japan and China cruise

Join Drs. Melton and Thomas for a once-in-a-lifetime trip through Asia, visiting Hong Kong, Shanghai, Beijing, Nagasaki, Kyoto, Kochi, Mount Fuji and Tokyo. Check [www.drtravel.com](http://www.drtravel.com) or email Dr. Rob Pascal at [info@drtravel.com](mailto:info@drtravel.com) for more information.

MAY 3-7, BALTIMORE, MD

## Be a Superhero for Sight at ARVO

The Association for Research in Vision and Ophthalmology (ARVO) is often considered the gold standard in innovation that will undoubtedly affect the way you practice today and far into the future.

You can be a part of the action by attending this year's annual conference from May 3-7 in Baltimore, MD. This year's theme, "Sight-Saving Therapeutics," highlights the groundbreaking work underway for treatment options of the future.

ARVO has assembled a five-star lineup for 2020, including the opening keynote, "Role of the Microbiota in Immunity and Inflammation," presented by Yasmine Belkaid, PhD, the director of the National Institute of Allergy and Infectious Diseases' microbiome program, and the closing keynote, a panel discussion on "Cell-based Therapies for Eye Disease," moderated by Susan L. Solomon, JD, of the New York Stem Cell Foundation Research Institute.

Another ARVO highlight will be its cross-sectional group sessions. On deck are "Functional Genomics and In vitro/In Vivo Genetic Annotation in the Post-GWAS Era," "Technologies for Visual Enhancement in 2020 and Beyond," and "In Vivo Theranostic Platforms for Monitoring and Activation of Ocular Therapies."

You also won't want to miss ARVO's symposia lineup that includes "Crossroads Between the Nervous

and Immune Systems in Ocular Development, Health and Disease," "Personalized Science: Understanding Human Ocular Disease Using Stem Cell Models," "Epigenomics and Personalized Medicine: 'Across the Globe'" and "Clinical Applications of Artificial Intelligence in the Eye."

For more information, go to [www.arvo.org/annual-meeting](http://www.arvo.org/annual-meeting).

### ARVO Goes Global

Think ARVO has exhausted its reach? Think again. In 2020, ARVO will be launching a new regional meeting series, ARVO International. The meetings, hosted every two to three years in different parts of the world such as the Pacific Rim, Europe and Latin America, will connect eye and vision scientists wherever they live.

The first regional meeting, ARVO

International (Pacific Rim), will be held in Honolulu, Hawaii, from October 15-18. The meeting will feature the latest research and trends in ophthalmology and vision science, targeted to both researchers and clinicians.

The program chair for the inaugural ARVO International meeting will be Choun-Ki Joo, MD, PhD, FARVO. Dr. Joo is a professor in the department of ophthalmology and visual science at The Catholic University of Korea.

ARVO International will be modeled after the ARVO annual meeting and will be developed by a full program committee of well-known scientists and researchers. The program will include abstract submissions as well as a robust selection of lectures, keynotes and scientific presentations.

For more information, go to [www.arvo.org/annual-meeting](http://www.arvo.org/annual-meeting).

# Hit the Books, Then See the Sights!

**N**eed to get away? Then look no further than the many destination CE offerings on deck for 2020. Whether you're hankering for a Caribbean cruise, a skiing adventure or some CE in Budapest, there's a meeting for you.

## Sail the High Seas

AEA ([optometriccruiseseminars.com](http://optometriccruiseseminars.com)) will offer several cruises in 2020. Each will offer 10 hours of CE credit:

- **Feb. 23-March 1, Southern Caribbean.** Attendees will sail on the NCL Epic RT San Juan.
- **July 1-11, European Explorer.** Join Louise Sclafani on this cruise aboard the Enchanted Princess.
- **July 4-11, Alaska.** Attendees will be aboard the Royal Princess cruise ship for this event.
- **July 5-12, Danube River.** Attendees will make the AmaMagna ship their home for the week.
- **July 11-18, Mediterranean.** Set sail on the Celebrity Apex. Dr. Travel ([www.drtravel.com](http://www.drtravel.com)) has several CE cruises for 2020:
- **Feb. 15-22, Western Caribbean Cruise, round-trip from Miami.** Join Whitney Hauser for "Innovations in Primary Care Optometry" aboard Royal Caribbean's Symphony of the Seas. Attendees can earn up to 16 CE hours.
- **Feb. 29-March 14, South American Cruise, Santiago, Chile to Buenos Aires, Argentina.** Ron Melton and Randall Thomas present "Comprehensive Medical Eye Review 2020" aboard the Norwegian Star. The cruise offers 12 CE credits.
- **June 25-July 5, Western Mediterranean Cruise, round-trip from Barcelona.** Sit in on lectures with Richard Mangan during "Advanced Ocular Care" aboard Royal Caribbean's Allure of the Seas. Attendees can earn up to 16 CE hours.
- **July 27-Aug. 8, British Isles Cruise, round-trip from London.** Dr.

Melton will present "Therapeutic Advances in Ocular Disease 2020," and 12 hours of CE will be offered.

- **Dec. 27, 2020-Jan. 3, 2021, Eastern Caribbean Cruise, round-trip from Ft. Lauderdale, FL.** Join "Expanding the Scope of Primary Care" presented by Blair Lonsberry aboard Royal Caribbean's Allure of the Seas. Attendees can earn 16 hours of CE credit.

## Head in a Book, Toes in the Sand

Opportunities abound to soak up the sun when you're not in the lecture hall.

- **Jan. 19-25, Island Eyes Conference 2020.** Pacific University College of Optometry will offer 30 CE hours during its meeting at the Hyatt Regency in Maui. Presenters will include Thomas Quinn, Christopher Quinn, Susan Cotter, Jay Haynie and William Hefner. The Armed Forces Optometric Society will also be on hand. ([www.pacificu.edu/academics/colleges/college-optometry/continuing-education](http://www.pacificu.edu/academics/colleges/college-optometry/continuing-education); [www.afos2020.org](http://www.afos2020.org))
- **Jan. 23-25, Nassau, Bahamas.** Join the Academy of Ophthalmic Education and Dry Eye Coach at the Atlantis Resort. Presenters will be Whitney Hauser, Scott Schachter, Alan Glazier, Curt Baxstrom, Andrew Morgenstern and Patrick Quaid. Eighteen CE hours will be offered. [www.aoece.com/tropical-destinations](http://www.aoece.com/tropical-destinations)

- **Jan. 25-Feb. 1, Frigate Bay, St. Kitts.** Join Marc Myers, Andrew Gurwood, Alan Glazier and Alison Bozung at St. Kitts Marriott Resort. ODs can earn up to 20 CE credit hours.

- **Feb. 8-15, Tropical CE-Riviera Cancun 2020.** Held at the Breathless

Riviera Cancun, this meeting will offer 20 CE hours. Presenters will be Mark Dunbar and Maynard Pohl.

- **Feb. 21-22, Palm**

**Beach, Aruba.** Join Salus University for "CE by the Sea." Presenters will include Alan Kabat, Kelly Malloy, Jeffrey Nyman, Tracy Offerdahl and Carlo Pelino. Attendees can earn up to 12 CE hours. ([www.salus.edu/cebythesea](http://www.salus.edu/cebythesea))

- **March 11-15, Ocular**

**Therapeutics in Cancun.** Ocular will offer 20 hours of CE at the

Therapeutics CE Fiesta Americana Condesa all-inclusive resort. Presenters will be Tony Litwak, Jim Thimons and Eric Conley. ([www.otce.net](http://www.otce.net))

- **June 28-July 5, Tropical CE-Riviera Maya 2020.** Join faculty Justin Schweitzer and Jill Autry at the Grand at Moon Palace. Attendees can obtain up to 20 hours of CE.

• **Oct. 1-4, VOA Voyages in Visions.** The Virginia Optometric Association will offer eight CE hours at the Sandals Royal Bahamian Spa Resort & Offshore Island, with speakers Jim Thimons, Alan Glazier and Christine Sindt. ([www.thevoa.org](http://www.thevoa.org))

• **Oct. 15-18, ARVO International.** This new CE opportunity brings ARVO excellence beyond its annual conference, with a second major meeting planned for 2020, this time in Honolulu, Hawaii. ([www.arvo.org/annual-meeting](http://www.arvo.org/annual-meeting))

*Sunny climates will provide a relaxing setting for many CE experiences offered in 2020.*

*Stunning natural beauty and exciting ports of call will be the backdrop for exotic CE cruises this year.*

## Hit the Slopes

These conferences capitalize on the adventures snow-covered mountains offer:

- **Feb. 14-17, Winter Ophthalmic Conference (SkiVision).** Join co-chairs Murray Fingeret and Leo Semes at the Westin Snowmass Conference Center, Snowmass Village, CO, over Presidents' Day weekend when 17 hours of CE will be available. ([www.skivision.com](http://www.skivision.com))

• **Feb. 23-28, EyeSki.** Visit Shadow Ridge Resort in Park City, UT, to earn 22 CE hours from Len Messner, Nate Lighthizer, Steve Sorkin, Carolyn Majcher, Joe Pizzimenti and James Fanelli. ([www.eyeskiutah.com](http://www.eyeskiutah.com))

## Enjoy Some Old-world Charm

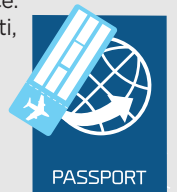

CE in Italy/Europe ([www.ceinitaly.com](http://www.ceinitaly.com)) offers meetings throughout Europe in the spring, summer and fall. Attendees can earn up to 12 hours at each.

• **April 26-28, Heidelberg, Germany.** Presenters will include Len Messner, James Fanelli and Lorraine Lombardi. The venue will be Hotel zur Alten Brucke.

• **April 29-May 1, Strasbourg, France.** Join Drs. Messner, Fanelli and Lombardi at the Regent Petite France.

• **May 13-15, Florence, Italy.** Joseph Pizzimenti, Rosa Tang and James Fanelli will present at the Hotel Silla.

• **June 19-21, Amsterdam, Netherlands.** The meeting will be held at the American Hotel in the Amsterdam's historic center, with Joseph Pizzimenti, James Fanelli and Bill Monaco.

PASSPORT

## Pack Your Bags for a European Tour

Feeling wanderlust for some old-world European charm but also hoping to get some CE hours under your belt?

The CE in Italy/Europe series features popular optometric experts lecturing in some of Europe's most beautiful settings. Each meeting will offer 12 CE hours delivered against the backdrop of many bucket list-worthy locations. The cities selected are often located close together—such as Budapest and Vienna, or Heidelberg and Strasbourg—so attendees can earn CE while easily traveling through Europe.

The goal is to provide timely, relevant education in incredible environments, says host James Fanelli, OD. He brings in doctors who are experts in their respective fields. "Whether those speakers are optometrists, neurologists, infectious disease specialists or other subspecialists, all speakers share two important things: a love of travel, especially to Italy, and a desire to share their expertise," Dr. Fanelli says.

CE in Italy/Europe will begin its spring series in the beautiful German hamlet of **Heidelberg** in late April. The hotel is located in the historic center, at the foot of Old Town Bridge, with views of Heidelberg Castle and the Neckar River. "In late April, the weather in this area is absolutely fantastic, with spring flowers making their mark on the landscape. Warmer daytime weather and cool nights make for a very relaxing venue suitable for great education and afternoons and evenings free to absorb the local culture," Dr. Fanelli says.

Next on the itinerary is the French city of **Strasbourg**. The historic area is aptly named "Petite France," since it's like stepping back in time with its unique architecture and surrounding canals, Dr. Fanelli says. The host hotel is located on an island boasting sweeping views of the canals below. When lectures are over for the day, there will be plenty to see in the Alsace region of France where the weather is ideal for making wine. Cafés and shops line the canals. And of course, there is the Cathedral of Notre Dame de Strasbourg, the epicenter of Petite France.

The third meeting heads to **Florence**, Italy, the heart of the Renaissance, where CE in Italy began in 2008.

*Budapest's rich history and dramatic views will enrich the 2020 slate of the CE in Italy/Europe series.*

• **Oct. 16-18, Budapest, Hungary.** Join Len Messner, James Fanelli and Paul Buongiorno at the Hotel Ariar.

• **Oct. 19-21, Vienna, Austria.** Key faculty will be Joseph Pizzimenti, James Fanelli, Steve Sorkin and Len Messner at the Hotel de France, located in the heart of Vienna.

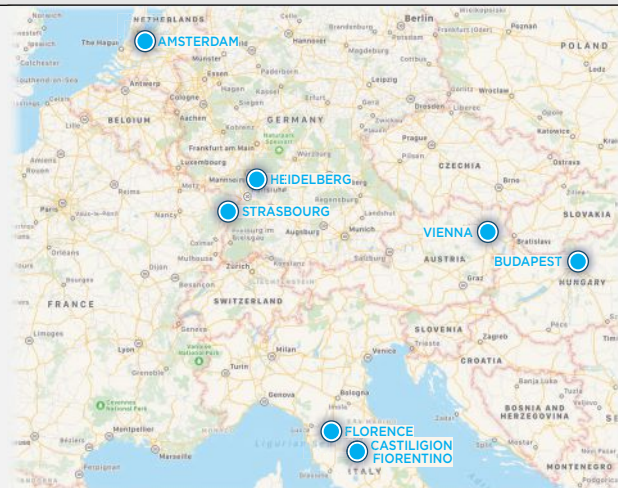

• **Oct. 29-31, Tuscany, Italy.** Held at the Residence Le San-tucce attendees can hear James Fanelli, Paul Kamitsuka, Paul Buongiorno, Lorraine Lombardi and Len Messner.

CE in Italy isn't the only European jaunt planned for 2020. Here are other CE meetings that will be held across the pond:

• **March 15-16, Netherlands Contact Lens Congress.** Join one of the largest contact lens meetings, in Noord Brabant, where you can earn up to 16 CE hours. ([www.ncc2020.com](http://www.ncc2020.com))

• **May 21-23, CE Abroad, Heidelberg, Germany.** This meeting is hosted by UIW Rosenberg and will offer 20 CE credit hours. ([optometry.uiw.edu/continuing-education/index.html](http://optometry.uiw.edu/continuing-education/index.html))

• **Sept. 5-12, POA CE in Italy, Rome and Sorrento.** This PA Optometric Assn. meeting features Greg Caldwell and Carlo Pelino. Earn up to 24 CE hours. ([www.poaeyes.org](http://www.poaeyes.org))

While the series returns to some tried and true favorites each year, for 2020 Dr. Fanelli added **Amsterdam**, another city of canals with a rich historic center. The city offers a wealth of museums, shops and historical sights and moderate summer temperatures due to its northern location.

The fall meetings will kick off in **Budapest**, a first for CE in Italy/Europe, in a lively and historic part of town, in mid-October when the heat and the crowds have subsided. "Our conference hotel sports one of the best rooftop lounges in all of Budapest, with spectacular views of the skyline. After a morning of education and an afternoon strolling about, one can relax with an aperitivo in the lounge," Dr. Fanelli says.

Next the team will head west by train to **Vienna**. This stop will be in the heart of the pedestrian sector of the city, home to St. Stephen's Cathedral and Schoenbrunn Palace, not to mention sacher tortes for those with a sweet tooth.

The final fall meeting will be held in the **Tuscan town of Castiglion Fiorentino**, a fan favorite. "Tuscany is absolutely stunning, especially in the fall," says Dr. Fanelli. "While there are so many draws to the Tuscany venue, food and wine top the list, along with spectacular sights. But our venue at the end of October will also bring us first-pressed olive oil," a Castiglion specialty. Once picked, the olives are processed immediately, with a final product in hand within eight to 10 hours. "We'll head to a local processor to see it in action, and enjoy a sampling of the 2020 product," Dr. Fanelli says.

For more information, contact [jamesfanelli@ceinitaly.com](mailto:jamesfanelli@ceinitaly.com), 910-452-7225 or go to [www.ceinitaly.com](http://www.ceinitaly.com).

### CE With a View

These other conference opportunities will have you raising a toast, casting a line and exploring the northern sights:

• **June 14, Wine Country CE/A Flight of Ocular Courses.** Paul Karpecki knows almost as much about wine as eye care. Join him here and earn six CE hours. ([reosvision.com](http://reosvision.com))

• **July 19-22, Eyeflyfish 2020.** This meeting in Estes Park, CO, will offer 20 CE hours. ([www.eyeflyfish.com](http://www.eyeflyfish.com))

• **July 23-Aug. 2, Tropical CE Alaska 2020.** Head to Anchorage with Blair Lonsberry and Jason Miller, and earn 20 CE hours. The meeting will be held at the Lakefront Hotel, Alyksa Resort & Grand Denali Lodge. ([tropicalce.com](http://tropicalce.com))

• **Aug. 28-30, Northern Escape 2020.** This Quebec City meeting will offer 15 CE hours. The event will be held at the Delta Hotels by Marriott. ([www.optometricedu.com/home](http://www.optometricedu.com/home))

• **Sept. 6-10, Tropical CE Sonoma 2020.** Here's another chance to see and experience California wine country. Presenters will include John McGreal, Jr., and Jill Autry. Attendees can earn up to 14 hours of CE. ([tropicalce.com](http://tropicalce.com))

**CE in DC: A Capital Idea**

**JUNE 24-28, WASHINGTON, DC**

The American Optometric Association (AOA) and the American Optometric Student Association (AOSA) invite you to join them in the nation's capital for one of the most anticipated events in 2020, Optometry's Meeting, set for June 24-28.

For five days, attendees can soak up some of the best continuing education in the profession and stay up-to-date on the latest technologies and industry advances showcased in the exhibit hall.

The annual event also offers ample opportunities for attendees to engage with their peers and colleagues during the more than 100 events surrounding the CE offerings. But most importantly, this year affords an unprecedented opportunity to rally behind the profession and join the many advocacy efforts underway.

"In 2020, the American Optometric Association's #2020EyeExam initiative is leveraging the once-ever calendar year to foster awareness of the essentialness of in-person, comprehensive eye exams with AOA doctors of optometry," said Barbara L. Horn, OD, AOA president. "There couldn't be a more auspicious time for the optometric profession to come together to learn, lead and connect in our nation's capital than 2020."

Hosting the conference in DC is no coincidence, and the AOA plans to harness the power of its members and conference attendees to "shine a spotlight on optometry's advocacy priorities," according to Dr. Horn.

"This Optometry's Meeting presents an exciting opportunity for optometric professionals to not only get the right tools to advance their careers and practices, but also unite under our common cause to be recognized for the future-focused role in American health care that our patients need."

For more information, contact Sarah Sutherland, [ssutherland@aoa.org](mailto:ssutherland@aoa.org), 314-983-4124, or go to [optometrymeeting.org](http://optometrymeeting.org).

**Culture Fix on a Budget**

If you want to fit in some sightseeing during the meeting, DC's Smithsonian museums should top your list. Here's a look at the many locations, all free:

**National Museum of African American History and Culture:** 15th St. and Constitution Ave., [nmaahc.si.edu](http://nmaahc.si.edu). Here you can learn about the richness and diversity of the African American experience, which is brought to life with interactive exhibits and more than 36,000 artifacts.

**African Art Museum:** 950 Independence Ave., [africa.si.edu](http://africa.si.edu). This is the only national museum in the US dedicated to the collection, exhibition, conservation and study of the arts of Africa.

**Air and Space Museum:** Independence Avenue and 6th Street, [airandspace.si.edu](http://airandspace.si.edu). Launch into the history of flight with icons of air and space travel. The building contains 23 galleries and hundreds of artifacts.

**Air and Space Museum Udvar-Hazy Center:** 14390 Air and Space Museum Parkway, Chantilly, VA, [airandspace.si.edu](http://airandspace.si.edu). This companion facility houses hundreds of historically significant air- and spacecrafts in an open, hangar-like setting.

**American Art Museum:** 8th and F streets, [americanart.si.edu](http://americanart.si.edu). This collection offers an unparalleled record of the American experience, capturing the aspirations, character and imagination of the American people.

**American History Museum:** 14th Street and Constitution Avenue, [americanhistory.si.edu](http://americanhistory.si.edu). The museum traces American history from colonial times to the present.

**National Museum of the American Indian:** 4th Street and Independence Avenue, [americanindian.si.edu](http://americanindian.si.edu). This museum cares for one of the world's most expansive collection of Native objects, photographs and media.

**Anacostia Community Museum:** 1901 Fort Place SE, [anacostia.si.edu](http://anacostia.si.edu). Rotating exhibitions explore various aspects of urban community life.

**Archives of American Art:** 8th and F streets, [aaa.si.edu](http://aaa.si.edu). This is the world's largest resource dedicated to preserving the papers and primary records of the visual arts in America.

**Freer Gallery of Art:** Jefferson Drive and 12th Street, [freersackler.si.edu](http://freersackler.si.edu). This gallery houses one of the premier collections of Asian art, with objects dating from Neolithic times to the early 20th century.

**Hirshhorn:** Independence Avenue at 7th Street, SW, [hirshhorn.si.edu](http://hirshhorn.si.edu). International modern and contemporary art is displayed in the celebrated cylindrical building, adjoining plaza and sunken sculpture garden.

**National Zoo:** 3001 Connecticut Ave., NW, [nationalzoo.si.edu](http://nationalzoo.si.edu). The zoo sits on 163 acres in the heart of DC's Rock Creek Park and is home to more than 1,500 animals and 300 different species.

**Natural History Museum:** 10th Street and Constitution, [naturalhistory.si.edu](http://naturalhistory.si.edu). The world's most popular natural history museum is dedicated to understanding the natural world and our place in it.

**Portrait Gallery:** 8th and F streets, [npg.si.edu](http://npg.si.edu). The collection weaves together the story of the people who have shaped the country—from pre-colonial times to the present.

**Postal Museum:** 2 Massachusetts Ave., [postalmuseum.si.edu](http://postalmuseum.si.edu). This space showcases the largest and most comprehensive collection of stamps and philatelic material in the world.

**S. Dillon Ripley Center:** 1100 Jefferson Drive, SW, [www.si.edu](http://www.si.edu). These underground rooms house the Smithsonian's International Gallery, the Smithsonian Associates and the Discovery Theater.

**Sackler Gallery:** 1050 Independence Ave., [www.freersackler.si.edu](http://www.freersackler.si.edu). The second museum of Asian art features both permanent and temporary exhibits from antiquity to the present.

**Smithsonian Gardens:** Smithsonian museum grounds, [gardens.si.edu](http://gardens.si.edu). Horticulturist-led tours are available weekly, from spring through fall.

### Dine in Style

Foodies hoping to snag a table at the best of the best in the nation's capital can take a look at the 2020 *Michelin Guide* for Washington, DC, which is brimming with top restaurants, affordable hot spots and essential insights:

**The Inn at Little Washington:** 309 Middle St., Washington, VA, [theinnatlittlewashington.com](http://theinnatlittlewashington.com). The only DC venue with three Michelin stars, this inn provides elegant dining known for its diverse tasting menus.

**Minibar by José Andrés:** 855 E St. NW, [www.minibarbyjoseandres.com](http://www.minibarbyjoseandres.com). Take a multi-course journey through molecular gastronomy at this two Michelin star establishment, which is regularly booked months in advance.

**Pineapple and Pearls:** 715 8th St. SE, [www.pineappleandpearls.com](http://www.pineappleandpearls.com). With two Michelin stars, this restaurant offers meticulously crafted courses each paired with a drink.

**Gravitas:** 1401 Okie St. NE, [www.gravitasdc.com](http://www.gravitasdc.com). This former tomato cannery is now a one Michelin star farm-to-table restaurant offering the delicious bounty of the Chesapeake.

**Sushi Nakazawa:** 1100 Pennsylvania Ave. NW, [www.sushinakazawa.com](http://www.sushinakazawa.com).

If a menu-less, 20-course experience suits your taste, look no further than this one Michelin star venue.

**Maydan:** 1346 Florida Ave. NW, [www.maydandc.com](http://www.maydandc.com). Diners at this one Michelin star restaurant are greeted by dishes from the Middle East and North Africa.

**Little Pearl:** 921 Pennsylvania Ave. SE, [www.littlepearlDC.com](http://www.littlepearlDC.com). This cafe-by-day and wine-bar-by-night offers award-winning culinary creations.

**Brescia:** 1906 14th St. NW, [www.brescadc.com](http://www.brescadc.com). An inventive menu melds tantalizing flavors and the chef's one-of-a-kind vision at this one Michelin star restaurant.

**Kinship:** 1015 7th St. NW, [kinshipdc.com](http://kinshipdc.com). Kinship opened to rave reviews and boasts a one Michelin star rating.

**Métier:** 1015 7th St. NW, [www.metierdc.com](http://www.metierdc.com). Located beneath Kinship, an equally indulgent experience awaits with a \$200 seven-course tasting menu; requires jackets for men.

**Masseria:** 1340 4th St. NE, [www.masseria-dc.com](http://www.masseria-dc.com). This restaurant harkens back to the chef's rustic Italian roots.

**Plume:** 1200 16th St. NW, [www.jeffersondc.com/downtown-washington-dc-restaurants/plume](http://www.jeffersondc.com/downtown-washington-dc-restaurants/plume). The classically trained chef executes European-inspired dishes to perfection in this one Michelin star restaurant.

**Komi:** 1509 17th St. NW, [komires-restaurant.com](http://komires-restaurant.com). This one-star hot spot serves up a tasting menu highlighted by Mediterranean seafood inside intimate and simplistic environs.

**The Dabney:** 122 Blagden Alley NW, [thedabney.com](http://thedabney.com). Discover signature Mid-Atlantic fare in an unpretentious space boasting one Michelin star.

**Fiola:** 3050 K St. NW, [www.fioladc.com](http://www.fioladc.com). This one-star outpost sates wine and negroni lovers, as well as connoisseurs of house-made pastas and Italian-inspired seafood.

**Rose's Luxury:** 717 8th St. SE, [www.rosesluxury.com](http://www.rosesluxury.com). Neighborhood dining doesn't get any better than this one Michelin star establishment.

**Sushi Taro:** 1503 17th St. NW, [www.sushitaro.com](http://www.sushitaro.com). This hot spot specializes in omakase-style meals—your meal is decided by the chef.

**Tail Up Goat:** 1827 Adams Mill Rd. NW, [www.tailupgoat.com](http://www.tailupgoat.com). Mediterranean flavors permeate the menu here. Enjoy everything from goat lasagna and house-baked breads to hearty veggie-friendly fare.

SEPTEMBER 17-20, PORTLAND, OR

**For GWCO, Head West... and Back in Time**

When the Great Western Council of Optometry (GWCO) returns to the picturesque Portland, OR, for its annual meeting, the highly anticipated event will be far from normal, says Michael Judkins, OD, GWCO's 2019-2020 president. Instead, the exemplary education that GWCO is known for will be complemented by a Roaring Twenties theme.

"The September 17-20, 2020, event is adding a splash of roaring twenties flare to its sound foundation as one of the premier annual events for optometric professionals to gather for education, networking and product and service shopping. I look forward to welcoming my colleagues and friends for another can't-miss GWCO Congress," Dr. Judkins says.

GWCO will offer more than 70 hours of OD and AOP CE (COPE, NCLE, ABO and CPC credits), and attendees can design their own education experience based on their professional objectives. Keep an eye on the GWCO website ([www.gwco.org](http://www.gwco.org)) for the growing line-up of presenters who will give new insights and perspectives to the challenges optometric professionals face as the profession continues to evolve.

This year's meeting will again include a two-day exhibit hall featuring

nearly 100 exhibitors.

Attendees can also explore various events designed to help them expand their network and explore Portland. One highlight will be a gala dinner hosted by the Pacific University College of Optometry to celebrate its 75th anniversary, which is scheduled for Saturday, September 19 at the Oregon Convention Center.

GWCO will also welcome back the American Association of Corporate Optometrists' (AACO/Energieyes) Region West Conference for the second year in a row. Last year's inaugural event with GWCO included a full day of education, offering six COPE-approved CE credits.

GWCO was formed in 1991 to provide a common voice for members within organized optometry, facilitate communication, enhance professional development and provide financial support to affiliated state optometric associations. The organization is comprised of 13 member-state optometry associations representing Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming.

For more information, contact GWCO at [info@gwco.org](mailto:info@gwco.org), 206-209-5273, or visit [www.gwco.org](http://www.gwco.org).

**Double Down on CE at VEW**

SEPTEMBER 23-26, LAS VEGAS

Just like its New York counterpart, Vision Expo West (VEW) will be getting a supercharged clinical education reboot in 2020, according to its hosts, the Vision Council and Reed Exhibitions.

This unique clinical content, which was slated to debut at Vision Expo East (VEE) in March, will include a total of 300 CE credit hours, and attendees can earn up to 28 hours during the course of the meeting. The educational updates for 2020 were spurred by the Vision Expo Education Advisory Board, which tasked its speakers to create new clinical education content for its two flagship Vision Expo meetings, organizers say.

VEW, like VEE, will be unveiling a refreshed and “reimagined” exhibit hall experience this year, so stay tuned!

In 2020, VEW will be held Sept. 23-26 in Las Vegas at the Sands Expo & Convention Center. VEW will offer hundreds of seminars, classes and tracks that will help expand your field of vision and keep you updated on best practices for the care and treatment of your patients.

As of press time, the announced plan was to have the VEW clinical education program closely match that of VEE’s, but the Vision Council says it often tweaks the program based on attendee feedback. With that in mind, here’s a snapshot of what’s planned for VEW in 2020:

**Glaucoma:** This innovative track will offer 15 courses, ranging from a “March Madness: Case Challenges in Optometry—Optimizing Ocular Imaging” series to “Innovations in Glaucoma Drug Delivery: What the Future Holds” and “MIGS in Glaucoma.”

**Anterior Segment:** Over a dozen classes will be offered in this category, including “Dry Eye and Contact Lenses,” “Biologics in the Optometric Practice: Lowering Inflammation with Amniotic Tissue” and “Are You Ready for Ocular Allergy Armageddon?”

**Imaging Technology:** Want to know more about OCT and beyond? Then you’ll want to sit in on courses

in this track such as the “March Madness: Case Challenges in Optometry—Optimizing Ocular Imaging” series, “How OCT Forever Changed Retina” and “OCT in Glaucoma.”

**Surgical/Comanagement:** If comanagement is part of your practice or you’d like to dip your toe into this area, these three courses will help hone your skills or get you up to speed: “Aesthetics in Optometry—A Therapeutic Approach: IPL,” “Oculoplastic Optometrist: Aesthetics in Eye Care” and “20/20 Refractive Update: Advances in Presbyopic and Corneal Procedures.”

**Hands-on Workshops:** Want to roll up your sleeves and get some practical experience? These courses will put you in the driver’s seat: “Injections and Minor Procedures Workshop,” “Scleral Lens Workshop” and “OCT Workshop.”

**Contact Lenses:** This modality remains a critical part of any successful practice. VEW will offer 18 contact lens courses that will help take this arm of your practice to the next level. A few courses in this track include “Building a Successful Myopia Management Subspecialty Practice,” “New and Innovative Uses for Contact Lenses” and “Contemporary Thoughts on OSD and Dry Eye Management... There’s More Than Just MGD Going On, Folks!”

**Low Vision:** These classes are supported by a grant from the Vision Council: “Today’s Low Vision Made Easy,” “Low Vision Patient Communication Strategies” and “Low Vision—A Multidisciplinary Approach.”

**Posterior Segment/Retina:** Do you have a specialty retina practice or just want to learn more about the fast-moving world of AMD and other posterior segment conditions? Then you’ll want to register for these courses: “Emerging Trends in Age Related Macular Degeneration,” “Innovations in Diabetic Retinopathy,” “Don’t Let Swollen Optic Nerves Make You Nervous” and “The Greatest Posterior Segment Disease Course.”

**Optometric/Surgical Procedures:** Brush up on the latest in this area with these courses: “Laser Procedures in Optometry,” “Cataract 2020: The Optometric Role in the Era of Specialty Lenses” and “Injections and Minor Procedures Workshop.”

**Pharmacology:** New meds, drug delivery systems and therapies are entering the market at a rapid pace. These courses will keep you up-to-date on the latest in this area: “Oral Pharmaceuticals in Anterior Segment Disease,” “Top 10 Drugs: What’s in the Cabinet” and “Ocular Pain Management.”

For more information or to register, go to [west.visionexpo.com](http://west.visionexpo.com).

### Shop 'Til You Drop

If you hit the jackpot at the casino or just need some retail therapy between sessions at VEW, be sure to check out these shopping destinations, courtesy of the Las Vegas Convention and Visitors Authority:

**Grand Bazaar Shops:** Modeled after the Grand Bazaar in Istanbul, this two-acre outdoor mall allows shoppers to stroll under the brightly tiled roof as they visit unique boutiques.

**The Linq Promenade:** Take in this open-air retail, dining and entertainment district, anchored by the world's tallest observation wheel, the High Roller.

**The Shops at Crystals:** This 500,000-square foot retail and dining district is home to luxury retail stores such as Louis Vuitton, Gucci and Prada.

**Wynn Esplanade:** This section features the first Givenchy boutique storefront in North America. Among the big-name shops are Alexander McQueen, Cartier and Christian Dior.

**Encore Esplanade:** This retail mall offers luxury shopping with sunlit corridors and views of shimmering pool. Specialty stores include Chanel, Hermès and Loro Piana.

**Via Bellagio shops:** The stores here offer fashion and jewelry collections from Giorgio Armani, Tiffany & Co. and Dior, among others.

**The Grand Canal Shoppes:** Cobblestone walkways line this 875,000-square foot retail space within the Venetian featuring 160 stores, restaurants and attractions.

**The Forum Shops at Caesars Palace:** This emporium features more than 160 specialty shops and restaurants, including Giuseppe Zanotti, M Missoni, Mulberry and more.

**The Cosmopolitan of Las Vegas shops:** The well-known hotel has assembled an eclectic collection of shops on the third floor of the resort.

**Miracle Mile Shops:** This 1.2-mile complex at Planet Hollywood features live entertainment and more than 200 dining options and shops.

**The Shoppes at Mandalay Place:** Retailers and restaurants are encased in a 310-foot-long sky bridge that connects Mandalay Bay Resort & Casino with the Luxor Las Vegas.

**Fashion Show:** This mall is nearly two million square feet and expanding, making it the largest place to shop on the Strip.

**Earn CE Where East Meets West**

Want to get up to speed on the latest in eye care at a central location? Then head to Cleveland from October 29-31 for some scary good continuing education at the annual EastWest Eye Conference.

Always a regional fan favorite, 2020's EastWest Eye will offer a total of 125 CE hours, and attendees can earn up to 25 CE hours during the meeting. Held at the Cleveland Convention Center and hosted by the Ohio Optometric Association, EastWest Eye provides world-class education for optometrists and staff, all while maximizing fun and offering practical knowledge.

Education Chairperson Beth Muckley, OD, is assembling an all-star faculty that tentatively includes Paul Karpecki, Nathan Lighthizer and

Justin Schweitzer, to name a few. Informative traditional lectures will be abundant, but there will also be more intimate educational opportunities, such as roundtable discussions, poster sessions, workshops and panel presentations.

This year, the conference is capitalizing on the holiday weekend with several entertainment plans for all attendees.

"We will have a fun-filled, Halloween-themed Friday night party with the eye docs of rock, 'Bad Habits,'" according to Brian Mathie, OD, the conference chairman. "It will be worthy of the year 2020!"

For more information or to register, contact Jordan Quickel at [jquickel@aao.org](mailto:jquickel@aao.org), call 800-999-4939 or go to [www.eastwesteye.org](http://www.eastwesteye.org).

## Hit a High Note at Academy 2020 Nashville

Finding a conference that feeds your thirst for knowledge and comradery in a lively environment is music to any optometrist's ears, and the 2020 American Academy of Optometry (AAO) meeting is just the venue. The Academy will continue to raise the bar with exceptional education on the latest research, innovations, new technologies and treatments in the fun and eclectic Nashville.

At the meeting, happening October 7-10, attendees can choose from over 400 CE hours of lectures and workshops, section and special interest group symposia and hundreds of scientific papers and posters.

The Academy's 99th annual meeting, presented at the famed Music City Center, will feature a wide array of relevant CE courses, cutting-edge research and myriad social events. Attendees can head to the expansive exhibit hall showcasing all of the latest and greatest technologies. Expect some stellar Academy staples, including the plenary session, the Ezell Fellows Present lecture, the Lawrence Gray Symposium on Neuro-ophthalmic Disorders, the Prentice and Fry Lectures, the Monroe J. Hirsch Research Symposium and the annual Academy Awards program.

Additionally, several specialty organizations hold meetings prior to or during Academy, including the Armed Forces Optometric Society, the Optometric Glaucoma Society and the Optometric Wellness and Nutrition Society.

"At Academy 2020 Nashville, attendees will discover an exciting, interactive experience designed to give them the clinical and scientific knowledge that will help them thrive in the evolving world of optometry," says Peter Scott, executive director of the American Academy of Optometry. "We purposely aligned the

meeting with World Sight Day, giving us an important platform to both elevate the profession and highlight the need for greater vision impairment awareness. Plus, it's Nashville, and with the city's rich cultural heritage that's become one of the most diverse in terms of its entertainment and culinary offerings, this conference has the makings of a must-attend event. You definitely don't want to miss this one."

For more information or to register, contact Helen Viksnins, [helenv@aaoptom.org](mailto:helenv@aaoptom.org) or go to [www.aaoptom.org](http://www.aaoptom.org).

### Take in the Sounds of the City

Nashville was built upon a foundation of music—it's the common thread connecting the life and soul of the city and its people. If you are looking for a break from the CE courses, check out some of these suggestions from [www.visitmusiccity.com](http://www.visitmusiccity.com) to hear great music or discover more about the city's heritage:

**Bluebird Café:** 4104 Hillsboro Pike, [bluebirdcafe.com](http://bluebirdcafe.com)

The 37-year-old Bluebird Cafe is Nashville's best-loved live music venue, featuring up-and-coming and well-known songwriters in an intimate setting. The café features two shows

nightly, seven nights a week. Reservations are recommended.

**Country Music Hall of Fame and Museum:** 222 5th Ave. South, [countrymusicHalloffame.org](http://countrymusicHalloffame.org)

This is the definitive home of American music, safeguarding more than 2.5 million artifacts. Induction into the Hall of Fame is country music's highest honor. The first members, Jimmie Rodgers, Fred Rose and Hank Williams, were inducted in 1961.

**The Gallery of Iconic Guitars (The Gig) at Belmont:** 1907 Belmont Blvd., [thegigatbelmont.com](http://thegigatbelmont.com)

This premier venue celebrates some of the rarest and most well-known guitars and other string instruments. The Gig features an intimate experience for guitar enthusiasts to view these prized instruments up-close.

**The George Jones:** 128 2nd Ave. North, [georgejones.com](http://georgejones.com)

Located in the heart of downtown Nashville, the George Jones boasts four floors of fun for all, including a smokehouse restaurant, the Jones Coffee Joint, multiple bars, the George Jones Museum, a private event space and a rooftop bar with unbeatable views of the Cumberland River and Nissan Stadium.

**The Grande Ole Opry:** 2804 Opryland Drive, [www.opry.com](http://www.opry.com)

Nothing says “Nashville” like a night at the Grand Ole Opry. Among the Opry’s current members are Dierks Bentley, Charlie Daniels, Martina McBride, Brad Paisley, Carrie Underwood and Keith Urban. Known as “the show that made country music famous,” you can count on an unbeatable experience.

**Historic RCA Studio B:** 1611 Roy Acuff Pl., [studiob.org](http://studiob.org)

Upgrade your Country Music Hall of Fame and Museum experience by adding a tour of Historic RCA Studio B, which provides a glimpse into the heart of the Nashville sound.

**Imagine Recordings:** 10 Music Circle South, [imagine recordings.com](http://imagine recordings.com)

This recording studio provides rare access to live, carefully curated 80-minute recording sessions at historic Soundstage Studios, home to more than 500 number-one hits by country music’s biggest stars. Each Imagine session is different with new songs provided by some of the top recording pros and emerging artists.

**Musician’s Hall of Fame and Museum:** 401 Gay St., [www.musicianshalloffame.com](http://www.musicianshalloffame.com)

This museum honors musicians from all genres of music who have played on thousands of iconic recordings. The newest addition, The Grammy Museum Gallery, is a 9,000 square foot interactive exhibit where visitors learn about every aspect of the music industry.

### Eat to the Beat

Nashville is a culinary hub with a vast array of restaurants and unique dishes, no matter your taste. Be sure to check out these Nashville restaurants, courtesy of Food Network:

**Hattie B’s Hot Chicken:** 112 19th

Ave. South and other locations, [hattieb.com](http://hattieb.com)

If you’re coming to Nashville to eat, put hot chicken at the top of your list. Hattie B’s brings the local dish to several neighborhoods in Nashville and beyond in a fast-casual setting where you can order your meal with five different heat levels.

**Biscuit Love:** 316 11th Ave. South, [biscuitlove.com](http://biscuitlove.com)

This is the brick-and-mortar extension of chef-owners Karl and Sarah Worley’s passion for biscuit-focused Southern fare. At any of the three locations (Gulch, Hillsboro Village, downtown Franklin), order at the counter and choose from a selection of breakfast and lunch items.

**Pinewood Social:** 33 Peabody St., [www.pinewoodsocial.com](http://www.pinewoodsocial.com)

Here you can find a bowling alley, two outdoor pools, a bocce court, roomy booths and a dedicated Airstream trailer bar, not to mention excellent food and a full coffee shop.

**Rolf & Daughters:** 700 Taylor St., [www.rolfanddaughters.com](http://www.rolfanddaughters.com)

This restaurant set the tone for the “new Nashville” dining scene since opening in 2012. The food, crafted with old-world techniques by Chef Philip Krajeck, starts with the inventive pastas, all made in-house. The wine list offers a tightly edited selection of small producers and unique varieties.

**Folk:** 823 Meridian St., [www.goodasfolk.com](http://www.goodasfolk.com)

Chef Krajeck also runs the pizza-focused neighborhood spot Folk in East Nashville. A wood-fired oven blisters the airy, flavorful crusts of Krajeck’s creative pies—the clam with bonito, chiles and hints of lemon is a must.

**Martin’s Bar-B-Que Joint:** 410 4th Ave. South, [www.martinsbbqjoint.com](http://www.martinsbbqjoint.com)

With customized roasting pits in each of his joints, Pat Mar-

tin smokes whole hogs every day, serving up the sweet, smoky meat and charred bits by the platter.

**Husk Nashville:** 37 Rutledge St., [husknashville.com](http://husknashville.com)

Neighborhood Dining Group opened Husk Nashville in 2013 with a strictly Southern, contemporary concept. With executive chef Katie Coss at the helm, ingredients come from around the region, as well as the restaurant’s on-site garden, housed in a historic 1880s mansion.

**Arnold’s Country Kitchen:** 605 8th Ave. South, [www.arnoldscountrykitchen.com](http://www.arnoldscountrykitchen.com)

The truest taste of Nashville can be found on a red tray at Arnold’s Country Kitchen. Established in 1982, it stands as one of city’s most beloved meat and threes—a place where you can get an affordable Southern meal of a protein and three side dishes, plus a drink and dessert, served cafeteria-style.

**Lockeland Table Community Kitchen and Bar:** 1520 Woodland St., [lockelandtable.com](http://lockelandtable.com)

The vibe inside this East Nashville spot is always neighborly. But that’s especially true on weeknights from 4pm to 6pm during Community Hour, when a selection of small plates, like chicken wings and deviled eggs with chow chow, are just \$6. A portion of Community Hour proceeds is donated to local schools.

**Butchertown Hall:** 1416 4th Ave North, [butchertownhall.com](http://butchertownhall.com)

With its modern, minimalist aesthetic and deliciously smoky aroma, Butchertown Hall met with rave reviews when it opened in Germantown in 2015. The restaurant combines the “Texo-German” mash-up cuisine found in Texas Hill Country with a solid, European-heavy beer list.

# WINTER OPHTHALMIC CONFERENCE

A REVIEW MEETING OF CLINICAL EXCELLENCE

THE LONGEST  
RUNNING WINTER  
CE MEETING  
IN EYE CARE!

Missed this year?  
Join us in  
2021!

**FEBRUARY 12-15, 2021  
ASPEN, COLORADO**

Westin Snowmass Conference Center  
100 Elbert Lane, Snowmass Village, CO 81615

The meeting features relevant topics in  
glaucoma, dry eye, external disease and retina.

Additional information to be announced.

A Medscape **LIVE!** CONFERENCE

Administered by:  
**REVIEW**  
EDUCATION GROUP

**cove**  
\*Approval pending

**SALUS**  
UNIVERSITY  
Pennsylvania College of Optometry

Review Education Group partners with Salus University for those ODs who are licensed in states that require university credit.  
See event website for complete details.

**Retina Update 2020 Promises to Demystify Fundus Care**

If you're hoping to build up your skills on everything from retinal tears to the latest in anti-VEGF treatments and surgical techniques, then mark your calendar for Dec. 4-5. That's when Retina Update 2020, hosted by the Optometric Retina Society (ORS), will happen. Check [reviewofoptometry.com/events](http://reviewofoptometry.com/events) for the location and other details as the date approaches. Attendees can earn 12 CE hours.

The meeting will feature experts in all things fundus, including optometrists Steven Ferrucci and Mohammad Rafieetary, who will share their insights on retinal and macular disease origins and clinical care.

"The annual ORS meeting in 2019 had the best attendance yet and was a huge success with great comments from participants as well as the

vendors and speakers," Dr. Ferrucci says. "We expect the same in 2020, with a great lineup of speakers and topics to educate the audience and provide practical guidance for taking optimal care of our patients with retinal disease."

For more information, email [reviewmeetings@jhihealth.com](mailto:reviewmeetings@jhihealth.com), call 866-658-1772 or visit [www.reviewofoptometry.com/events](http://www.reviewofoptometry.com/events).

**Dec. 27, 2020-Jan. 3, 2021, Eastern  
 Caribbean Cruise**

**Expanding the Scope of Primary Care**

**2021 Preview: Looking—and  
 Booking—Ahead**

Already researching vacation and CE plans for 2021? A few high-profile trips are already in the works.

**Caribbean and Asian cruises.** Join Dr. Travel and the New Jersey Society of Optometric Physicians Feb. 14-21, 2021, on an Eastern Caribbean Cruise. The meeting, "Clinical Compendium 2021," will be round-trip from Miami and attendees will be able to earn up to 16 CE credits from presenter Leo Semes. Topics will include glaucoma, nutrition and the eye.

Dr. Travel and company will set sail again March 12-27, 2021 for a cruise to Japan and China. This meeting,

Tokyo

"Therapeutic Advances in Ocular Disease 2021," will offer 12 CE credits, and the main event will be lectures by Randall Thomas and Ron Melton. Stops will include the Chinese cities of Hong Kong, Shanghai and Beijing; in Japan, you'll visit Nagasaki, Kyoto, Kochi, Mount Fuji and Tokyo.

For more information on either cruise, contact Dr. Travel Seminars: [info@drtravel.com](mailto:info@drtravel.com), 800-436-1028 or go to [www.drtravel.com](http://www.drtravel.com).

**CE in Italy/Europe.** Join James Fanelli July 10-20, 2021 on a Greek Isles cruise aboard the Royal Clipper. Attendees will depart from Venice and travel down the Adriatic coastline with stops in Montenegro and Croatia. The cruise will also sail around western Greece with stops in Mykonos and Santorini before ending in Athens. Registration is open to everyone, but this popular meeting will give first preference to previous attendees, so be sure to book ahead.

For the spring 2021 meetings, CE in Italy/Europe heads back to Barcelona and northern Italy. The fall 2021 meetings stay in Italy and are slated

Athens

for the Amalfi Coast, Sicily, Tuscany and Florence. For more information, contact Dr. Fanelli at [jamesfanelli@ceinitaly.com](mailto:jamesfanelli@ceinitaly.com), 910-452-7225 or go to [www.ceinitaly.com](http://www.ceinitaly.com).

**Big conferences.** The five heavy-hitters in OD education have already announced dates for 2021:

- **SECO Annual Congress:** Atlanta, February 24-29
- **Vision Expo East:** New York City, March 18-21
- **American Optometric Association annual meeting:** Anaheim, CA, June 23-27, 2021
- **Vision Expo West:** Las Vegas, September 22-25
- **American Academy of Optometry:** Boston, November 3-6
